REASONS FOR ALLOWANCE

6. Per the instant office action, claims **1-11** are considered as allowable subject matter.
7. As per **claim 1**

The primary reasons for allowance of claim **1** in the instant applicant is the claimed combination with the inclusion in this claim of the limitation of a method of managing storage comprising periodically querying by a prefetcher a DICOM modality worklist and “**...querying said DICOM modality worklist by said at least one modality, at a configurable query rate, using said DICOM communications protocol, for information regarding at least one task scheduled to be performed by said at least one modality, wherein said configurable query rate is based on at least one parameter selected from the group consisting of: time of day, and workload of said at least one modality...**” The prior art of record, including the reference cited above neither anticipates nor renders obvious the above-recited combination.

8. Dependent **claims 2-11** are allowable at least for the reasons recited above including all the limitations of the allowable independent base claim upon which they depend.

9. Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled “Comments on Statement of Reasons for Allowance.”
